PROFESSIONAL SUMMARY

Junior Flutter Developer building cross-platform mobile apps for Android and iOS with Flutter, Dart and Clean Architecture. Strong foundation in OOP and SOLID principles, Bloc/Cubit state management, REST API integration, Firebase and Supabase. Completed a Flutter internship working in an Agile team with weekly code reviews, and built 5 apps covering authentication, maps, payments, push notifications, offline support and AI-powered receipt scanning. Writes clean, testable code backed by unit/widget tests and CI.

TECHNICAL SKILLS

- **Languages & Frameworks:** Dart, Flutter
- **Core Concepts:** OOP, SOLID Principles, Asynchronous Programming (Futures/Streams), Widget Lifecycle
- **State Management:** Bloc, Cubit
- **Architecture & Design:** Clean Architecture, MVVM, Repository Pattern, Design Patterns, DI (GetIt), GoRouter, Deep Linking
- **Networking & APIs:** REST APIs, Dio, Retrofit, Freezed, JSON Serializable, Pretty Dio
- **Backend & Database:** Firebase Auth, Cloud Firestore, FCM, Supabase, Supabase Storage & Edge Functions
- **Local Storage & Performance:** Offline Mode, Flutter Secure Storage, Skeleton Loading (Skeletonizer), Reusable Widgets
- **Maps & Location:** Google Maps SDK, Geolocator, Geocoding, flutter_map
- **Authentication & Security:** Email/Password, Google/Facebook Sign-In, OTP, Biometric Login (Fingerprint/Face ID)
- **AI & Data Extraction:** AI-powered receipt scanning, OCR, structured data extraction
- **Testing & CI/CD:** Unit Testing, Widget Testing, GitHub Actions | **Payments & Localization:** Stripe, Arabic RTL, AR/EN
- **Tools & Practices:** Git, GitHub, Postman, Android Studio, VS Code, Agile/Scrum, Code Reviews

PROFESSIONAL EXPERIENCE

Flutter Developer Intern — Huma Volve, Cairo, Egypt *Mar 2026 – Jul 2026*

- Built 6+ reusable Flutter UI components shared across 2 apps (Grocery App, HabiSpace), reducing code duplication and speeding up feature delivery.
- Integrated 7+ REST API endpoints using Dio within a Clean Architecture codebase.
- Developed 5+ feature modules with Bloc/Cubit, keeping business logic separated from UI for easier maintenance and testing.
- Took part in weekly Agile code reviews with senior developers, applying feedback, debugging issues and following Flutter/Dart best practices.

PROJECTS

Sakk — Smart Warranty Management App *(Personal project · release build ready, preparing Google Play launch)*
Flutter, Clean Architecture, Bloc/Cubit, Supabase, Edge Functions, Firebase, AI/OCR, GoRouter, Skeletonizer

- Built a warranty, subscription and purchase tracker covering products, receipts, warranty periods and return windows, with calendar reminders for warranty expiry.
- Implemented AI-powered receipt scanning for structured data extraction, backed by 2 Supabase Edge Functions and a 3-table database.
- Added Google Sign-In, biometric login, offline mode, skeleton loading and full Arabic/English localization.

Delivery App *(Personal project)*
Flutter, Firebase Auth, Google/Facebook Sign-In, Google Maps, Geolocator, Retrofit, Dio, Bloc/Cubit

- Built a food delivery app with 3 authentication methods, location-based ordering and a cart-to-checkout flow across 15+ screens using Clean Architecture.

Doctor Booking App *(Personal project)*
Flutter, Firebase Authentication, Cloud Firestore, Supabase Storage, Bloc/Cubit, Clean Architecture

- Built a role-based appointment booking app with 2 dashboards (Patient, Doctor), managing 15+ doctor and patient profiles via Firestore with Supabase Storage image uploads.

HabiSpace *(Huma Volve internship project)*
Flutter, Firebase Auth, FCM, Bloc/Cubit, GoRouter, flutter_map, Stripe

- Built a real estate app with map-based search, push notifications, deep linking, 3D previews and Stripe-powered payments.

Grocery App *(Huma Volve internship project)*
Flutter, Bloc/Cubit, Dio, GoRouter, Secure Storage, OTP/Pinput, Image Picker, Skeletonizer, GetIt, GitHub Actions

- Built an e-commerce grocery app with OTP authentication and image uploads, backed by a 3-stage GitHub Actions CI/CD pipeline (analyze, test, build) that runs unit and widget tests on every push.

EDUCATION & TRAINING

Bachelor's Degree in Computer Science — MTI University, Cairo *Oct 2019 – Jun 2023*
Flutter Development Bootcamp — e_Youth (Remote) *Apr 2025 – Aug 2025*
Languages: Arabic — Native | English — B2 (Professional working proficiency)
